EDUCATION

MCA
Lovely Professional University
11/2021 - 01/2024   *73%*

BCA
Punjab Technical University
06/2018 - 06/2021   *85%*

WORK EXPERIENCE

Frontend Developer
ProProfs

11/2023 - Present   *Noida (Hybrid)*
Contributed to the development of a live video streaming application using advanced technologies, including Docker, to enhance performance and scalability.

Achievements/Tasks
- Successfully developed and released three major features, enhancing product functionality and user experience.
- Addressed a high volume of customer support tickets, ensuring timely resolutions and maintaining customer satisfaction.
- Identified and resolved multiple bugs, contributing to system stability, and implemented several minor features and upgrades to improve overall performance.

Senior System Associate
Infosys Limited

07/2021 - 10/2023   *Chandigarh*
Working extensively on Angular projects after my training itself. Experience with debugging & upgrading the application version, able to convert Angular Web to Android & IOS Apps using Capacitor.

Achievements/Tasks
- Enhanced application performance using component based development.
- Experience with creating custom directives, services to interface with restful apis.
- Utilized Git for version control and employed Spring Boot in the backend to create complex APIs.

ACHIEVEMENTS

Code Battle Hackathon Winner (08/2022 - 08/2022)
Worked with Agora SDK, Angular, HarperDB, Spring Boot etc and Won $1500 Prize Money
https://github.com/sahil1sk/dennis_hacthon_project

Batch Topper Infosys Training (07/2021 - 10/2021)
Trained in Angular & Spring Boot Technologies for 3 Months. Received 94% Marks in my Infosys Training & Batch Topper.

PERSONAL PROJECTS

Quick Meet
- Quick Meet is Simple & Fast to use Application. Easy to interact with it as Password Less Login/Sign Up. Schedule meeting just by selecting 3 Options Quick & Easy to use for everyone. https://github.com/sahil1sk/dennis_hacthon_project

Google Form Builder
- This form builder is basically similar like Google Form. It is a Proof of Concept for the Google Forms not full project. Link to Follow: https://vue-form-builder.netlify.app/
